TV Stand Installation Instructions

Stand Installation Guide

The TV is packaged with the TV stand separated from the cabinet. To setup the TV table stand, please carry out the installation according to the instructions below.

1. The panel can be scratched easily, so please:

Place a soft cloth on the table and place the TV face down on the cloth.

Note: Always unplug the AC cord first when installing/removing the stand.

2. Take the base. Please align the screw holes of the base and the TV, and then insert the screws into the holes on the base and tighten them.

Note: To ensure that the TV is stable, please tighten all screws.

The stand of some TV models is designed with snap-in type, easily installed by snapping into installation groove, instead of screw.

Please take note of the base direction:

WARNING

Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

1. Using cabinets or stands recommended by the manufacturer of the television set.
2. Only using furniture that can safely support the television set.
3. Ensuring the television set is not overhanging the edge of the supporting furniture.
4. Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
5. Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
6. Educating children about the dangers of climbing on furniture to reach the television set or its controls.

If your existing television set is being retained and relocated, the same considerations as above should be applied.
